

Directions for Scoring your Inventory

When you have finished checking each item, add each column except the 'Never' column.

- Each check in 'Always' is worth 4 points.
- Each check in 'Usually' is worth 3 points.
- Each check in 'Sometimes' is worth 2 points.
- Each check in 'Seldom' is worth 1 point.
- Each check in 'Never' is worth 0 Points.

Add the totals from Always, Usually, Sometimes, and Seldom together and you will have your score out of a possible 100 points. The next three questions are very important also. Complete the following statements:

1. I feel that my score (does/does not) adequately reflect my life of discipleship because _____

2. Other things that should be taken into account that are not reflected in the inventory above and how I feel about them are _____

3. My personal overall evaluation of my discipleship is _____
